

Description:

- Daily Check
- High Voltage Value (up to $\pm 35\text{KV DC}$)
- Accuracy: DC volts: $\pm 2\%$ up to $\pm 35\text{kV}$
- Easy use & Safety operation

Specification:

Voltage division ratio: 1000:1

Working HV : $\pm 35\text{KV DC}$ (Max. 39.9KV)

Environment coefficient : $< 200\text{ppm}/^{\circ}\text{C}$

Dimension : 400*180*80mm

Power supply: 100V-240VAC input / DC 5V, 1A output

Display Accuracy : $\pm 2\%$

Operation temperature : 0°C to $+50^{\circ}\text{C}$

Weight : 1.1kg

Ground Clip lead : 1.6 meter.

Operation

Easy use and safety operation. Power on the **RESD1** and connecting the ground clip Lead **before** use. High voltage source direct touch to the measure tip without any measure range select which max. high voltage can be measured up to $\pm 35\text{KV DC}$

Safety precautions

The RESD1 ESD High Voltage meter must only be used by personal who are trained experienced and who are trained in safety precautions that are necessary to avoid possible injury when using such a device.

Hands, shoes, floor and work bench must be dry. Avoid making measurements under humid, damp or environmental conditions that might affect the safely of the measurement situation. The meter body should be kept clean and free of any conductive contamination.

WARNING

The ground clip lead connection is critical to the safe operation of the meter at any time.
